

Re: Do Not Call Rules

I respectfully request the FCC not implement any rules that would weaken the current Indiana Do Not Call law. The law is working very well in Indiana. Before adding my name, my wife's name, and my daughter's name to the Indiana Attorney General's Do Not Call list our household received an average four calls per day. Now we receive, on average, one call per week. A better use of resources might be to encourage all 50 states and the territories to implement their own do not call laws and to provide assistance to those local governments who request it. Bigger is not always better. Thank you for your attention in this matter.

Sincerely,  
Howard P. Rice
